## PRACTICE #2

## 2<sup>nd</sup> Grade

- 1) I have twelve red marbles and nine green marbles. How many marbles do I have in all?  
A. 15            B. 16            C. 19            D. 20            E. 21
- 2) I have 3 quarters and 2 nickels in my wallet. How much is that?  
A. 75¢            B. 80¢            C. 85¢            D. 90¢            E. 95¢
- 3) Complete this pattern: 5, 9, 13, 3, 7, 11, 1, 5, \_\_\_\_  
A. 1            B. 9            C. 8            D. 7            E. 6
- 4) Ms. Stauffer's class has 29 students. Only 13 of them are boys. How many girls are in Ms. Stauffer's class?  
A. 16            B. 15            C. 14            D. 12            E. 42
- 5) If a slice of pizza costs \$2, and a can of soda costs \$1, how much is three slices of pizza and two cans of soda cost?  
A. \$6            B. \$7.            C. \$8            D. \$9            E. \$3
- 6) Noel has a nickel and a quarter. He bought a gum for 10¢ and a tiny bouncy ball for another 10¢. How much money does he have left?  
A. 5¢            B. 10¢            C. 15¢            D. 20¢            E. none
- 7) Nicole finished her homework from 3:20 p.m. to 4:00 p.m. She did her math homework for 12 minutes and completed her research project for the rest of her homework time. How many minutes did Nicole do her research?  
A. 22 minutes            B. 40 minutes            C. 62 minutes  
D. 38 minutes            E. 28 minutes
- 8) Justin gets to play his Xbox for 2 hours this Sunday. If he played for 30 minutes already, how many more minutes can he play his Xbox?  
A. 60 minutes            B. 70 minutes            C. 80 minutes  
D. 90 minutes            E. 1 hour
- 9) Evaluate and complete this addition problem:

$$5 + 9 = \underline{\quad} + 7$$

A. 5            B. 6            C. 7            D. 8            E. 9

10) My mom work from 9:00 a.m. to 2:00 p.m. How many hours long does my mother work?

A. 3 hours    B. 4 hours    C. 5 hours    D. 6 hours    E. 7 hours

11) There are 100 marbles in a jar. My little brother took some, and only 73 marble left. How many did my brother take?

A. 23            B. 27            C. 26            D. 25            E. 37

12) Joey and his two friends want to see a movie. A movie ticket cost \$6. How much do Joey and his friends need to buy tickets to see the movie?

A. \$12            B. \$18            C. \$9            D. \$14            E. \$16

13) Which of the following is a 3-dimensional shape?

A. Square    B. rectangle    C. rhombus    D. cube    E. circle

14) How do you write the number "eight thousand twenty one?"

A. 800,021            B. 8,210            C. 8,201            D. 8,021            E. 80,021

15) Only 14 of 60 second grade students participate in the math league. How many second graders *do not* participate in the math league?

A. 54            B. 56            C. 46            D. 44            E. 14
